1) Sheet-Fed-Presses and Ancillary Equipment

HEIDELBERG "GTO 52+ N+P"

made in 1992 – 23 mio impressions
ALCOLOR-dampening-system with TECHNOTRANS
WEKO-spray-powder-unit

HEIDELBERG "GTO 52+ N+P"

made in 1988 – 39 mio impressions
standard dampening-system
excellent condition – technically as well as optically

HEIDELBERG "QM 46-2" - 1999

especially used for printing envelopes
incl. SCHNEIDER-envelope-feeder
(a second "QM 46-2" is available for spare-parts)

HEIDELBERG "OHT" – Windmill grey

made in 1977 – Serial-No. 190267 N
excellent condition

HEIDELBERG "S"-Cylinder

size: 38 cm x 52 cm
without inking-system

HEIDELBERG-Spare-Partes

for all kind of presses

RYOBI "3302 HA" – 2-colour-press

made in 2006 – Serial-No. ???
including register-puncher

TECHOTRANS-Ink-pumps 200 kg-barrels

for Sheet-Fed- and Web-Presses

Air-Supply-Systems

compressors and pumps for
air-pressure and vacuum

HEIDELBERG "PM-GTO 52-4 3P"

first installation in January 2000
58 mio impressions – printing 4/0 and 2/2
DSS-dampening-system with TECHNOTRANS

HEIDELBERG "GTO 52+"

made in 1994 – 53 mio impressions
standard dampening-system
real good condition

HEIDELBERG "SM 52-2+ N+P" (straight)

made in 1998 – 85 mio impressions
ALCOLOR and CPC 1.01
will be cleaned rebuilt in near future

HEIDELBERG "QM 46-2" – 1997

pre-used, real good condition
only 13 mio impressions

HEIDELBERG "OHT" – Windmill

made in 1968 – Serial-No. 167038 N
without inking-unit

HEIDELBERG-Register-Puncher and Plate-Bender

any type from GTO-size up to SM 102-size

RYOBI "500 K – N+P" – single-colour-press

made in ??? – Serial-No. 2145
including register-puncher

SCHNEIDER "F 60"-Streamfeeder

to be used with GTO- and QM-presses
to print envelopes "nonstop"

BALDWIN-Refrigerated-Water-Circulators

for Sheet-Fed- and Web-Presses

August 2018

2) Post-Press-Machines and -Equipment

FOLDERS:

STAHL-Folder "Ti 55/4" – 2003
continious feeder - 4 buckles - shingle-delivery
(second station available, too)

MBO-Folder "T 45-1-45/4" – No. K 03/35
flat-pile-feeder – 4 buckles – shingle-delivery

FALTEX-Folder – Art.-No. 735 + 743.132.00
2 + 2 buckles, straight- and/or cross-fold

STAHL-Presser-/Stacker "SBP 40"
suitable to nearly any older STAHL-folder

HORIZON-Folder "AFC-492" - 1999
flat-pile-feeder - 4 buckles - 1 knife - shingle-delivery

STAHL-Folder "F 47/4 FA – 1978
flat-pile-feeder – 4 buckles – shingle-delivery
sound-absorber-hoods

MBO-Folder "T 530-R 530 (Navigator) - 2005
continious feeder - 6 + 6 buckles - SBAP 46-stacker

STAHL-Knife-Folder "VFZ 52"
freestanding unit suitable to nearly any STAHL-folder

GUILLOTINES:

POLAR-Guillotine "66 E" – 1997
hardly used, **like new, only 14.000 cuts**

IDEAL-Guillotine "7228-90" – 1994
with side-tables and spare-knife

POLAR-Jogging-Table "RA 4"
Size 75 cm x 105 cm

(2 POLAR-Guillotine "55 EM" – 1989
with program and two (2) spare-knives

POLAR-Guillotine "ED 115 AT" - 1998
with Jogger "RA 4" and Transomat "E TR-1EL 130-4"

IDEAL-Guillotine "4805" – 199..
cutting-width 475 mm

POLAR-Jogging-Table "RAB 7"
with air-removal-roller

COLLATORS:

LACONDA –Collator "640" -1997
10 stations for 700 mm piles
with stitching-, folding- and trimming unit

GRAPHA-Collator and -Stitcher
collecting-chain for manual feeding + 2 stitching-heads

AB DICK "Plockmatic 310" for spare-parts

THEISSEN & BONITZ-Collator "sprint" - 1984
1 hand-feeding + 7 automatic-stations
jogging-table

DUPLO-Collator "DC 10000 S"
10 Stations A3 + stitcher

WATKISS-Collators "Vario 22" and "Vario 45"
with 22 respectively 45 stations

3a) PACKING- and PACKAGING-MACHINES:

MOSCA-Bundling-Machine “RA-A 55” - 1993
knotting with string (thread), hardly used
with string-material

MOSCA-Strapping-Machine
different MO- and RO-Models

MOSCA-Cross-Strapping-Lines
different Models

CYKLOP-Strapping-machines
with 5 mm straps

MOSCA-Cross-Strapping-Line “SoniXs”
Super-Sonic-sealing-system
refurbished – excellent condition – **like new**

KALLFASS- “KC 5040/400” – made 2002
foil-packing-and sealing-machine with shrink-tunnel

3b) BINDERY FEEDERS:

FERAG-Signature-Feeder “RB 8”
to “re-shingle” signatures from bundle or stack

STAHL-Signature-Feeder “EF 63”
to separate signatures from a stack

3c) BINDERY STACKERS:

Compensating Stacker “RIMA RS 3313 S”
like new – made 2008

Compensating-Stacker “MM 310 CS 25”
completely rebuilt, perfect condition

Other GAMMERLER- or RIMA-Stackers
see Web-Press-Accessories

Compensating-Stacker “MailTech CCSW”
eventually to be used as “spare-part-spender”

4) MISCELLANIOUS:

GEHO-Foil-Shrinking-Tunnel "HS 560"
max. size: 520 x 390 x 160 mm – **new**

Foil-Packaging- and Shrinking-Machine "MINPACK"

FOELLMER-Perforating-Machine
max. width 520 mm

HANG-Automatic-Drilling-Machine
with automatic stack-feeding and 4-holes-drilling

NAGEL-1-Hole-Paper-Drilling-Machine
NAGEL-2-Hole-Paper-Drilling-Machine
NAGEL-4-Hole-Paper-Drilling-Machine

HERMA-Labeling-Machine

OLA-JOGGER A3-SIZE
PLANAX-TABLE-JOGGER A4-SIZE
NAGEL-TABLE-JOGGER A4-SIZE

ANY KIND OF CONVEYORS, BELT- CURVES

RENZ-Spiral-Binding-System "Cutty 423" (1991)
Puncher – Spiral-Cutter – Closing-unit

KLAR-PAC-Foil-Shrinking-Tunnel
for small items (food)

TRÄNKLEIN-Book-Pressing-Unit
for 2 books side on side – max A3

BAIER-Corner-Rounding-Machine
freestanding model

NAGEL-Double-Head-Stitcher
NAGEL-Single-Head-Stitcher "rinak"
NAGEL-Stitcher manual actuated "TAK 18"

KRAUSE-Board-Cutting-Machine
manually actuated

RENA-InkJet-Label-Printer

RIETSCHLE-Compressors
BECKER-Compressors
and others

5a) WEB-PRESS-COMPONENTS and -ANCILLARY EQUIPMENT:

SPLICERS AND PASTERS:

MEG-SPLICER "DFM" – 102 cm
for automatic reel-changing

ALBERT-REEL-STANDS
for manual reel-changing

Other splicers or pasters on request !!!

WEB-PRESS-PRINTING-UNITS:

MAN-"ROTOMAN"-Printing-Units (1998 etc.)
still part of a complete press
to be dismantled by buyer for his use

MAN-"OCTOMAN"-Printing-Units (1993)
complete with wires etc.
or to be used as "spare-part-spender"

ALBERT "A 200 S"-Printing-Unit
blanket-to-blanket-unit, complete with wires etc.
or to be used as "spare-part-spender"

Other web-press-printing units or complete presses on request !!!

DIFFERENT WEB-PRESS-COMPONENTS:

BALDWIN-Rotary-Die-Cutting-Unit
coming from an OCTOMAN

VITS-SHEETER "QRS" - 1992
suitable to any web-press 660 mm width

M+A-REGISTER-PUNCHER (MAN)
suitable for presses with 630 mm cut-off

SULZER-COLD-WATER-STATION
to fulfil requirements of a chill-roller-stand

LINCOLN-INK-PUMPS
to work from 1000-kg-containers

MAN-PLATE-BENDER for 630 mm
manually actuated as well as automatically bending

TECHNOTRANS-INK-PUMPS
to work from 200-kg-barrels

BETZ-INK-PUMPS
to work from 1000-kg-containers

TECHNOTRANS-REFRIGERATED-CIRCULATOR
Type: "beta" – re-chilled by water
coming from a ROTOMAN

BALDWIN-REFRIGERATED-CIRCULATORS
different types and different capacity
re-chilled either by water or air

ASEA-SPARE-MOTOR
coming from an ALBERT "A 200"

BAUMÜLLER-SPARE-MOTOR
coming from an "OCTOMAN"

5b) WEB-PRESS-COMPONENTS and -ANCILLARY EQUIPMENT:

ROTARY TRIMMERS :

GAMMERLER-TRIMMING-LINE "RS 114/530"
2 trimming-modules combined with 1 bump-turn
infeed-belt with jogger and waste-gap on request
any conveyor on request
completely overhauled – excellent condition

MULLER MARTINI-TRIMMING-LINE "341"
2 trimming-modules connected with 1 bump-turn
+ knife-re-sharpening-unit
any conveyor-systems possible – on request
completely overhauled – real good condition

AMG-TRIMMING-LINE "RS 2000"
2 trimming-modules combined with 1 bump-turn
conveyors, curves etc. on request
1 module like new, 1 module overhauled

GAMMERLER- TRIMMING-LINE "RS 113/530"
2 trimming-modules combined with 1 bump-turn
infeed-belt with jogger and waste-gap on request
any conveyor on request
completely overhauled – very good condition

GAMMERLER-TRIMMING-LINE "RS 1343/530"
2 trimming-modules combined with 1 bump-turn
infeed-belt with jogger and waste-gap on request
any conveyor-system possible - on request
completely overhauled – very good condition

MULLER MARTINI-TRIMMING-LINE "341"
2 trimming-modules connected with 1 bump-turn
"as is"- however in good condition
conveyors etc. on request

Different individual components suitable to trimming-lines
such as
conveyor-belts – conveyor-curves – bump-turns – bump-turn-/90°-curve-combinations – separate joggers etc.
on request !!!

5c) WEB-PRESS-COMPONENTS and -ANCILLARY EQUIPMENT:

COMPENSATING-STACKERS :

GAMMERLER-COMPENSATING-STACKER "KL 501/1"

max. speed: 80.000 signatures per hour
max. size: 500 mm width x 330 mm length
completely overhauled by using original-spare-parts
excellent condition, technically as well as optically

for the moment 3 units available

RIMA-COMPENSATING-STACKER "RS 3010 S"

max. speed: 80.000 (100.000) signatures per hour
max. size: 470 mm width x 320 mm length
completely overhauled,
very good condition, technically as well as optically

RIMA-COMPENSATING-STACKER "RS 3110 SL"

max. speed: 100.000 signatures per hour
max. size: 470 mm width x 320 mm length
completely overhauled
very good condition, technically as well as optically

RIMA-COMPENSATING-STACKER "RS 3210"

max. speed: 120.000 signatures per hour
max. size: 500 mm width x 320 mm length
hardly used – like new
THAT'S A BARGAIN

MULLER MARTINI-COMPENSATING-STACKER "CN 25"

max. speed: 30.000 signatures per hour
max. size: 480 mm width x 320 mm length
perfect condition, technically as well as optically

MÜLLER MARTINI-COMPENSATING-STACKER "338 CS 70"

max. speed: 80.000 signatures per hour
max. size: 450 mm width x 340 mm length
(could be used for spare-parts as well)

MULLER MARTINI-COMPENSATING-STACKER "310"

see Bindery-Stackers
